

We Need Your Help!

"They cut out my vocal cords so I couldn't bark while I was at a puppy mill.
Will YOU be my voice?"

Many pet stores get their puppies from breeders who are breeding a large numbers of puppies for profit in mills. Many of these puppies and dogs are hauled to pet stores in tractor trailers like cargo. Some may not survive.

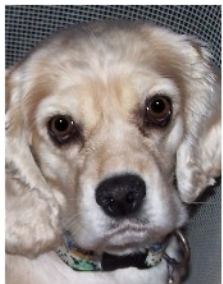

A puppy mill is a substandard breeding facility for dogs. These dogs are kept in the same small wire cage their entire lives, and many never touch foot on grass or solid ground.

Only when people begin adopting animals from a shelter, rescue, or reputable breeder instead of a pet store, where these puppies usually end up, or irresponsible breeders will this abhorring practice come to a stop.

For more information on how YOU can make a difference, visit:

www.MarilynsVoice.org

We also have a number of beautiful dogs rescued from the horrors of Ohio's puppy mills who have been lovingly rehabilitated in our foster homes. See a complete list of available dogs just waiting for their forever homes on our web site!
